

Honors's dam, **Bounce of Gold**, won quite a bit of futurity money in 1983 with Dale Youree in the saddle. She then continued over the next several years putting Kim in the limelight consistently in big events. Almost everything Kim Squires has been running in the last two decades has been by Honors or from his direct female family.

Bounce Of Gold was the mother to eight foals. The first two hit the arena to be very nice barrel horses. The first one was called Bounces Of Gold LTE \$22K, AQHA arena ROM with 49.5 points. She was Reserve World Champion Jr Barrels in 1996 and the next year was 3rd in Sr Barrels at the World Show. Also in 1997 another Bounce of Gold offspring Pe De Que was 3rd in the world in Jr Barrels. Is that some kind of a record? I know sires do this frequently, but MARE's? Pe De Que was arena ROM with 37.5 open, 2 youth performance points. Honor's half and full sisters have also been a stellar producers.
